

## **Aubrey - Assistant to Maintenance Specialist**

### **Position Overview:**

The **Assistant to the Maintenance Specialist** supports the maintenance, repair, and installation of irrigation systems. This role involves assisting with troubleshooting, system inspections, and ensuring efficient water distribution while maintaining high-quality service standards.

### **Key Responsibilities:**

- Assist in the maintenance and repair of irrigation systems, including sprinklers, valves, controllers, and piping.
- Support troubleshooting of system malfunctions, leaks, and pressure issues.
- Help with routine inspections to ensure proper operation and water efficiency.
- Aid in installing new irrigation components and adjusting existing systems as needed.
- Perform basic cleaning, unclogging, and minor part replacements under supervision.
- Transport tools, equipment, and materials to job sites.
- Maintain accurate records of service tasks and report issues to the Maintenance Specialist.
- Ensure compliance with company safety protocols and environmental regulations.

### **Qualifications & Skills:**

- Basic knowledge of irrigation systems or willingness to learn.
- Strong attention to detail and ability to follow instructions.
- Ability to work outdoors in varying weather conditions.
- Good physical stamina for lifting, digging, and manual labor.
- Basic mechanical skills and experience using hand tools.
- Strong teamwork and communication skills.
- Valid driver's license is a plus.

This role is ideal for someone looking to gain hands-on experience in irrigation system maintenance while working closely with an experienced specialist.
